Uncodemy Edutech Pvt. Ltd. was founded as a technical training institute under the Companies Act of 2013 with the main objective of training the youth in the areas of information and communication technology, such as **Artificial intelligence, machine learning, data science and analytics, business analytics, software testing, full stack development, digital marketing, web development, cyber security, ethical hacking, Cloud computing, AWS , Devops and other on-demand IT courses.**

Uncodemy has been associated with its parent company, GvCloud Secure Pvt. Ltd., Since its inception. Therefore, Uncodemy is not just a training institute but has been working as a web application development company and other service provider in the IT sector in India and abroad for many years. Uncodemy not only understands and meets the needs of the modern IT sector but also gives its students more career chances than other training facilities by focussing on practical training in accordance with client expectations.

In order to make the youth eligible for the current job vacancies, it is an essential aspect that the training curriculum is in sync with the current market demand. The curriculum of various courses offered at Uncodemy is designed keeping in mind the current market demand and the capabilities of the youth. The training program is provided as per the normset by the Ministry of Skill Development & Entrepreneurship, Government of India, and in compliance with the National Skill Quality Framework.

Through its ongoing efforts, **Uncodemy is fulfilling the vision of the Government of India to provide skill training to the youth and build a self-reliant India.** In addition to helping the young people get jobs we also assist them in finding jobs. **We rise by lifting others.**

***Founder, MD & CEO  
Uncodemy Edutech Pvt. Ltd.***

**“Uncodemy is a team of high-class working professionals associated with a Fortune 500 company. We are on a mission to employ millions. If you want a job or a career change, Uncodemy is the right place for you. We will teach you how to work with the latest technology.”**

### PROGRAM HIGHLIGHTS

 <b>Live industry-based projects</b>	 <b>100% placement assistance</b>	 <b>CV building</b>	 <b>Confidence Building</b>
 <b>Online &amp; offline</b>	 <b>weekly &amp; weekend classes</b>	 <b>Interview Session</b>	 <b>Mock Interview Session</b>
 <b>Course Completion certificate</b>	 <b>Recorded Class</b>	 <b>Group Discussion</b>	 <b>Grooming session</b>
 <b>Interview Session</b>	 <b>6 Month internship</b>	 <b>Access to Class &amp; Training Until Placement</b>	 <b>Communication Skills</b>

## ABOUT US

Uncodemy is one among a couple of driving organizations / in Delhi, Noida, NCR, India that give undeniable preparation in Data Science, Machine learning, Python programming, Tableau, - Deep Learning, and Artificial Intelligence. We at the collegetarget producing quality experts who can withstand the developing contest and rising intricacies in the innovative world. We are growing and leading the company of Delhi, Noida, NCR, India.

## THE UNCODEMY

Is an Educational and Professional improvement Organization that has been established to propel the product and IT calling by advancing and perceiving demonstrable skill through training, counselling, gatherings and accreditation. Our Professional Dedicated Team guarantees to give you the best of specialization courses under disciplines like Data Science Machine Learning, Data Mining, Tableau, Text Mining, ReactJS, NodeJS, Angular, Python Programming, Deep Learning, and Java, network protection, programming testing, Cloud Technology, Digital advertising and a lot more with an emphasis on trustworthiness and on the web and Offline learning. We're attempting to transform our enthusiasm for IT Software Training Platform into a thriving position and occupation situated in the preparing stage without any hesitation at work.

**Our aim is simple: We strive to create high-impact, hands-on experiences that prepare learners for meaningful and productive careers.**

**Warm Regards,  
Founder Uncodemy**

# CAREERS IN DATA SCIENCE

## SALARY PACKAGE

The results of a Data Science job is tracked in a database for engineers to review so they can fix the defect. There are times when the position can seem monotonous, but the focus of your work will constantly change to different aspects of the program, alleviating some of the repetition. You also get an early look at the latest in technology and have a hand in making sure that a program is as defect free as possible. Finally, with Business being an area that will always grow, Data Science have one of most secure jobs in the tech industry.

# Why Should You Choose UnCodemy?

---

## Top MNCs

UnCodemy partners with top-tier companies to ensure that its students receive instruction from industry experts with hands-on experience in the field of Data Science.

## No. 1 Institute for the Data Science Course

UnCodemy in Noida stands out as the premier Data Science course provider, featuring industry-experienced mentors from major corporations. With a commitment to 100% placements, it offers live project experiences, flexible online & offline training modes, and accelerated certification options catering to working professionals.

## About Courses

UnCodemy follows a structured approach and comprehensive curriculum. Here are some key reasons why learning Data Science from a training program can be beneficial:

1. Access to experienced instructors who can provide personalized guidance and support.
2. Exposure to industry-relevant tools and technologies.
3. Hands-on experience with real-world datasets and projects.
4. Networking opportunities with other students and professionals in the field.
5. A structured curriculum that covers the key concepts and skills needed to succeed in Data Science.
6. Access to job placement assistance and career counseling.

## About Industry Expert Trainers

Uncodemy partners with seasoned industry professionals to provide students with first-hand knowledge and real-world applications in the realm of Data Science. These experienced instructors share their practical insights, equipping students not only with theoretical knowledge but also with the practical skills needed to succeed in the field.

## About Certificate

Uncodemy is recognized by top industry bodies such as **ISO** and **NASSCOM** and is also endorsed by **Skill India**, a government initiative aimed at boosting skills development in the country. The certifications provided by Uncodemy are highly valued by employers, as they signify that the candidate has completed a rigorous program and has the necessary skills and knowledge to excel in the field.

## Doubt Session

Uncodemy facilitates doubt sessions where students can receive individualized attention and clarification on challenging concepts. These sessions are led by experienced instructors who provide comprehensive explanations and examples, ensuring that students leave the session with a thorough understanding of the material.

## Grooming Session

Soft skills training to improve communication, networking, and leadership skills. Identifying and highlighting transferable skills that may not be obvious.

## CV building

Helping students build a killer resume. Ensuring that the resume includes relevant keywords to help it stand out in applicant tracking systems. Overall, it's about helping students make their resume shine and stand out from the competition.

## Interview session

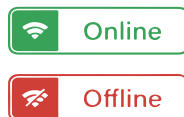

The goal is to prepare students for the job interview process, giving them the chance to practice their communication and interpersonal skills, and helping them feel more confident and prepared for the real thing.

## Mock interview

Uncodemy uses mock interviews in its IT training program as a tool to help students refine their interview skills and prepare for job interviews in the tech industry. The mock interviews are designed to replicate the pressure and format of a real interview, without the actual job at stake.

# Key Features

 <p>Live industry-based projects</p>	 <p>100% placement assistance</p>	 <p>CV building</p>	 <p>Confidence Building</p>
 <p>Online &amp; offline</p>	 <p>weekly &amp; weekend classes</p>	 <p>Interview Session</p>	 <p>Mock Interview Session</p>
 <p>Course Completion certificate</p>	 <p>Recorded Class</p>	 <p>Group Discussion</p>	 <p>Communication Skills</p>
 <p>Interview Session</p>	 <p>6 Months internship</p>	 <p>Access to Class &amp; Training Until Placement</p>	

# Top Skills and Tools Covered

# Course Curriculum

## Module 1 Python for Data Science

### Python Basics

- Need for Programming
- Advantages of Programming
- Overview of Python
- Organizations using Python
- Python Applications in Various Domains
- Python Installation
- Variables
- Operands and Expressions
- Conditional Statements
- Loops
- Command Line Arguments

### Functions and Object Oriented Programming

- User-Defined Functions
- Concept of Return Statement
- Concept of name = "main"
- Function Parameters
- Different Types of Arguments
- Global Variables
- Global Keyword
- Variable Scope and Returning Values
- Lambda Functions
- Various Built-In Functions

- Introduction to Object-Oriented Concepts
- Built-In Class Attributes
- Public, Protected and Private Attributes, and Methods
- Class Variable and Instance Variable
- Constructor and Destructor
- Decorator in Python
- Core Object-Oriented Principles
- Inheritance and Its Types
- Method Resolution Order
- Overloading
- Overriding
- Getter and Setter Methods
- Inheritance-In-Class Case Study

### Data Structure and File Operations

- Method of Accepting User Input and eval Function
- Python - Files Input/Output Functions
- Lists and Related Operations
- Tuples and Related Operations
- Strings and Related Operations
- Sets and Related Operations
- Dictionaries and Related Operations

# Course

# Curriculum

## Working with Modules and Handling Exceptions

- Standard Libraries
- Packages and Import Statements
- Reload Function
- Important Modules in Python
- Sys Module
- Os Module
- Math Module
- Date-Time Module
- Random Module

## Data Manipulation using pandas

- Introduction to pandas
- Data structures in pandas
- Series
- Data Frames
- Importing and Exporting Files in Python
- Basic Functionalities of a Data Object
- Merging of Data Objects
- Concatenation of Data Objects
- JSON Module
- Regular Expression
- Exception Handling

## Introduction to NumPy

- Basics of Data Analysis
- NumPy - Arrays
- Operations on Arrays
- Indexing Slicing and Iterating
- NumPy ArrayAttributes
- Matrix Product
- NumPy Functions
- Functions
- Array Manipulation
- File Handling Using NumPy
- Array Creation and Logic Functions
- File Handling Using Numpy
- Types of Joins on Data Objects
- Data Cleaning using pandas
- Exploring Datasets

# Course Curriculum

## Module 2 - Data Science Primer and Statistics

### Basics of Data Science

- What is Data Science?
- What does Data Science involve?
- Era of Data Science
- Business Intelligence vs Data Science
- Life cycle of Data Science
- Tools of Data Science
- Application of Data Science

### Feature Engineering

- What is Feature
- Feature Engineering
- Feature Engineering Process
- Benefit
- Feature Engineering Techniques

### Exploratory Data Analysis

- Introduction
- Stages of Analytics
- CRISP DM Data Life Cycle
- Data Types
- Introduction to EDA
- First Business Moment Decision
- Second Business Moment Decision
- Third Business Moment Decision

- Correlation
- Fourth Business Moment Decision

### Inferential Statistics & Hypothesis Testing

- Basics Of Probability
- Discrete Probability Distributions
- Continuous Probability Distributions
- Central Limit Theorem
- Concepts Of Hypothesis Testing - I: Null And Alternate Hypothesis, Making A Decision, And Critical Value Method
- Concepts Of Hypothesis Testing - II: P-Value Method And Types Of Errors Industry Demonstration Of Hypothesis Testing: Two-Sample Mean And Proportion Test, A/B Testing

# Course Curriculum

## Module 3 - Machine Learning

### Linear Regression

- Simple Linear Regression
- Simple Linear Regression In Python
- Multiple Linear Regression
- Multiple Linear Regression In Python
- Industry Relevance Of Linear Regression

### KNN classifier

- Data mining classifier technique
- Application of KNN classifier
- Lazy learner classifier
- Altering hyperparameter(k) for better accuracy

### Decision Tree Classifier

- Rule based classification method
- Different nodes for develop decision trees
- Discretization
- Entropy
- Greedy approach
- Information gain

### Support Vector classifier

- Black box
- SVM hyperplane
- Max margin hyperplane
- Kernel tricks for non linear spaces

### Logistic Regression

- Univariate Logistic Regression
- Multivariate Logistic Regression: Model Building And Evaluation
- Logistic Regression:
- Industry Applications

### Ensemble Learning

- Challenges with standalone model
- Reliability and performance of a standalone model
- Homogeneous & Heterogeneous Ensemble Technique
- Bagging & Boosting
- Random forest
- Stacking
- Voting & Averaging technique

### Time Series Analysis

- Difference between cross sectional and time series data
- Different component of time series data
- Visualization techniques for time series data
- Model based approach
- Data driven based approach

# Course Curriculum

## Clustering

- Difference between Supervised and Unsupervised Learning
- Prelims of clustering
- Measuring distance between record and groups
- Linkage functions
- Dendrogram

## Market Basket Analysis

- Point of Sale
- Application of Association rules
- Measure of association rules
- Drawback of measure of association rules
- Condition probability
- Lift ratio

## Clustering

- Difference between Supervised and Unsupervised Learning
- Prelims of clustering
- Measuring distance between record and groups
- Linkage functions
- Dendrogram

## Dimensionality Reduction

- Dimension reduction
- Application of PCA
- PCA & its working
- SVD & its working

## Module 4 - Deep Learning

### Introduction to Perceptron, Multilayer Perceptron/ANN

- Black box techniques
- Intuition of neural networks
- Perceptron algorithm
- Calculation of new weights
- Non linear boundaries in MLP
- Integration function
- Activation function
- Error surface
- Gradient descent algo

### Topics: Deep Learning Black Box Technique – CNN, RNN

- Imagenet classification challenges
- Convolution network applications
- Parameter explosion
- Challenges in classifying the images using MLP
- Pooling layers
- Fully connected layers
- Alexnet case study
- Modelling sequence data
- Vanishing/Gradient descent explode

# Course Curriculum

## Platforms for Deep Learning & Deep Learning Software Libraries

- What is a Deep Learning Platform
- H2O.ai
- Dato GraphLab
- What is a Deep Learning Library?
- Theano
- Deeplearning4j
- Torch
- Caffe

## Module 5 - Data Visualization and Story Telling

### Basic Visualization Tools

- Bar Charts
- Histograms
- Pie Charts
- Box Plots

### Specialized Visualization Tools

- Pair plot
- Word Clouds
- Radar Charts
- Waffle Charts

### Basic Visualization Tools Continued

- Scatter Plots
- Line Plots and Regression

## Module 6 - Natural Language Processing

### Text Mining & Natural Language Processing

- Text data generating sources
- How to give structure to text structure using bag of words
- Terminology used in text data analysis
- DTM & TDM
- TFIDF & its usage
- Word cloud and its interpretation

# Course Curriculum

## Module 7 - SQL

### Getting Started and Creating, Selecting & Retrieving Data with SQL

- Introduction to Databases
- How to create a Database instance on Cloud?
- Provision a Cloud hosted Database instance.
- What is SQL?
- Thinking About Your Data
- Relational vs. Transactional Models ER Diagram
- CREATE Table Statement and DROP tables
- UPDATE and DELETE Statements
- Retrieving Data with a SELECT Statement
- Creating Temporary Tables
- Adding Comments to SQL

### Subqueries and Joins in SQL

- Using Subqueries
- Subquery Best Practices and Considerations
- Joining Tables
- Cartesian (Cross) Joins
- Inner Joins
- Aliases and Self Joins
- Advanced Joins: Left, Right, and Full Outer Joins
- Unions

### Filtering, Sorting, and Calculating Data with SQL

- Basics of Filtering with SQL
- Advanced Filtering: IN, OR, and NOT
- Using Wildcards in SQL
- Sorting with ORDER BY
- Math Operations
- Aggregate Functions
- Grouping Data with SQL

### Modifying and Analyzing Data with SQL

- Working with Text Strings
- Working with Date and Time Strings
- Date and Time Strings Examples
- Case Statements
- Views
- Data Governance and Profiling
- Using SQL for Data Science

### Accessing Databases using Python

- How to access databases using Python?
- Writing code using DB-API
- Connecting to a database using DB API
- Create Database Credentials
- Connecting to a database instance
- Creating tables, loading, inserting, data and querying data
- Analysing data with Python

# Course Curriculum

## Module 8 - Advance Excel

### Analyzing and Visualizing Data using Excel

- Input data & handling large spreadsheets
- Tricks to get your work done faster
- Automating data analysis (Excel VLOOKUP, IF Function, ROUND and more)
- Transforming messy data into shape
- Cleaning, Processing and Organizing large data
- Spreadsheet design principles
- Drop-down lists in Excel and adding data validation to the cells.
- Creating Charts & Interactive reports with Excel Pivot Tables, Pivot Charts, Slicers and
- Timelines
- Functions like: - COUNTIFS, COUNT, SUMIFS, AVERAGE and many more.

- Excel features: - Sort, Filter, Search & Replace Go to Special etc...
- Importing and Transforming data (with Power Query)
- Customize the Microsoft Excel interface
- Formatting correctly for professional reports.
- Commenting on cells.
- Automate data entry with Autofill and Flash-fill.
- Writing Excel formulas & referencing to other workbooks / worksheets.
- Printing options
- Charts beyond column and bar charts: - Pareto chart, Histogram, Tree map, Sunburst
- Charts & more

## Module 9 - TABLEAU

### Analyzing and Visualizing Data using Tableau

- Introduction to Data Visualization
- Tableau Introduction and Tableau Architecture
- Exploring Data using Tableau
- Working with Data using Tableau including Data Extraction and Blending
- Various Charts in Tableau(Basics to Advanced)
- Sorting-Quick Sort, Sort from Axis, Legends, Axis, Sort by Fields
- Filtering- Dimension Filters, Measure Filters, Date Filters, Tableau Context Filters

- Reference Lines, Bands and Distribution
- Parameters, Dynamic Parameters and Actions
- Forecasting-Exponential Smoothing Techniques
- Clustering
- Calculated Fields in Tableau, Quick Tables
- Tableau Mapping Features
- Tableau Dashboards, Dashboards Action and Stories
- Groups , Sets and Combined Sets

# Course

# Curriculum

## Module 10 - POWER BI

### Introduction To Power BI

- Introduction to Power BI – Need, Importance
- Power BI – Advantages and Scalable Options
- Power BI Data Source Library and DW Files
- Business Analyst Tools, MS Cloud Tools
- Power BI Installation
- Power BI Desktop – Installation, Usage
- Sample Reports and Visualization Controls
- Understanding Desktop & Mobile Editions
- Report Rendering Options and End User Access

### Creating POWER BI Reports, Auto Filters

- Report Design with Database Tables
- Report Visuals, Fields and UI Options
- Reports with Multiple Pages and Advantages
- Pages with Multiple Visualizations. Data Access
- “GET DATA” Options and Report Fields, Filters
- Report View Options: Full, Fit Page, Width Scale
- Report Design using Databases & Queries

# CERTIFICATE OF TRAINING

( ISO 9001 : 2015 Certified )

PROUDLY PRESENTED TO

*Devanshi Pande*

You have successfully completed your  
Four Months Training on Data Analytics with specialisation in Python.

UnCodemy

# UNCODEMY LIFE IN CAMPUS

Life on campus at UnCodemy is vibrant and engaging. Here's what you might experience:

**1. Interactive Learning:** UnCodemy fosters a dynamic learning environment. You'll engage in hands-on workshops, coding challenges, and collaborative projects, allowing you to apply what you learn in real-world scenarios.

**2. Tech Culture:** The campus buzzes with a tech-savvy atmosphere. From hackathons to tech talks by industry experts, immersed discussions about the latest innovations and trends in the tech world.

**3. Diverse Community:** You'll meet students from diverse backgrounds, all technology. This diverse community fosters a rich and perspectives.

**4. Supportive Environment:** Faculty and mentors are readily available to support your academic and personal growth. Whether it's tutoring, career advice, or simply a friendly chat, there's always someone willing to help.

**5. Extracurricular Activities:** Beyond academics, there are clubs, sports teams, and social events that provide to unwind, make friends, outside the classroom.

**6. Innovation Hub:** UnCodemy encourages innovation and entrepreneurship. You'll have access to resources like incubators, workshops, and networking events to develop your ideas and projects.

**7. State-of-the-Art Facilities:** The campus is equipped with modern facilities, including well-equipped labs, libraries, and recreational areas, providing an ideal environment for learning and relaxation.

**8. Career Opportunities:** UnCodemy offers career development resources such as career fairs, internships, and connections to industry partners, setting you up for success after graduation.

UnCodemy

# INDUSTRIAL VISIT & COLLEGE SEMINAR

UnCodemy

# AGILE ACTIVITY IN UNCODEMY

Sure, here are the top 10 Agile activities in the IT industry

**1. Daily Stand-up Meetings:** Short, daily meetings where team members discuss what they accomplished yesterday, what they plan to do today, and any obstacles they are facing.

**2. Sprint Planning:** A meeting at the start of each sprint where the team plans the work to be completed during the sprint.

**3. Backlog Grooming:** Regularly reviewing and refining the product backlog to ensure it contains the appropriate items, prioritized correctly.

**4. Sprint Review:** A meeting at the end of each sprint where the team demonstrates the work completed during the sprint and gathers feedback from stakeholders.

**5. Sprint Retrospective:** A meeting at the end of each sprint where the team reflects on what went well, what didn't, and identifies actions for improvement.

**6. User Story Mapping:** Collaboratively visualizing the user's journey through the product to identify all possible features and prioritize them.

**7. Agile Estimation Techniques:** Using techniques like Planning Poker or T-Shirt sizing to estimate the effort required for user stories or tasks.

**8. Continuous Integration (CI):** Developers integrate their code into a shared repository frequently, usually multiple times a day.

**9. Test-Driven Development (TDD):** Writing automated tests before writing the code to implement the corresponding feature.

**10. Pair Programming:** Two programmers work together at one workstation. One writes the code while the other reviews each line as it is written. They switch roles frequently.

# UNCODEMY TRAINERS

**Dr. Vijay K. Gupta**

Founder, MD & CEO  
Uncodemy Edutech Pvt. Ltd.

“6+ years of diverse experience of skill training & scheme implementation at Ministry(MoSJ&E), Govt. of India.]. 7+ years of Research experience as M.Phil & Ph.D. Research Scholar at University of Delhi |Qualified JRF & NET for Assistant Professor of UGC | Software Testing Team instructor| course curriculum Coordinator |Motivational speaker| Mentor| Educator | Learner.

**Mr. Gangesh K. Gaur**

Founder, MD & CEO  
Uncodemy Edutech Pvt. Ltd.

“CEO and Founder of GvCloud Secure and 10 other software and IT services companies, with over 12 years of experience delivering high-quality web and mobile applications for clients in the USA, Canada, UK, Singapore, Australia, and India. Specializes in developing responsive iPhone and Android apps with deep expertise in iOS Swift, Android SDK, JavaScript, WordPress, HTML, CSS, Node.js, Express, MongoDB, Shopify, and software testing. Proficient in cutting-edge technologies like augmented reality, IoT, blockchain, & artificial intelligence. Additionally, has trained over 5,000 IT professionals, significantly impacting their careers and lives.

**Mr. Pradyumn Singh**

Head of Training & Placement Department

“Head of Training & Placement at Uncodemy. With 8 years of expertise, he has led Software Testing, Development, and Digital Marketing teams. Currently, Pradyumn directs his focus on ensuring top-quality training at Uncodemy and facilitating successful student placements. A seasoned professional with a strategic vision, he plays a pivotal role in shaping the educational and career paths of aspiring individuals at Uncodemy.

**Mr. Udit Sharma**

Lead of Development & Testing Department

“Lead of Development & Testing at Uncodemy. With 5 years of expertise, he has led Testing & Development Team. Currently, Mr. Udit directs his focus on ensuring top-quality training for Testing & Development Department at Uncodemy and facilitating successful student placements.

# Our Industry Expert

# Trainers

**Irshad Khan**

Data Scientist | Machine Learning | Python | Statistical Modeling | Analytics | Researcher | Applied Mathematics

“Data scientist enthusiast with strong experience in using a variety of data mining/ data analysis methods, a variety of data tools, building and implementing simulations. with extensive experience in solving many real-world business problems across different domains through insights from predictive modeling, data processing, and data mining, machine learning, and deep learning algorithms.

**Kunal Arora**

Senior Data Scientist at Yum

“An enthusiastic, energetic, and self-motivated learner who believes in hard work as well as smart work. I believe in working smart rather than working hard. I like to explore new ideas and experiment with them and I am interested in Python Programming Language. To describe myself in one word I can say I have a great passion for data science and its application in problem-solving, which is backed with practical knowledge. My aim is to get a chance to prove myself.

**Mr. Syed Najeeb**

Data Scientist | Machine Learning | Data Visualization | Air India, ISAP India, Ramtech Software Solutions

“Python, ML, DL, NLP, Power BI, Tableau, SPSS, SAS, MS-Excel, SQL, HTML, CSS Projects: AI agent Chat/Voice bot, AI Data Analysis, ML model to predict the coming months sale, Evaluation of NPS Data Model, Face Recognition model for Biometrics Training Experience: 7+ years.

**Mr. Anshul**

Senior Data Scientist at Yum

“With over six years of experience in the field of data science, Mr. Anshul Gautam Sir brings a wealth of industry knowledge to our academic team. Having worked with Fortune 500 companies like Amazon, Target, and TechMahindra, Mr Anshul has honed expertise in leveraging data to drive strategic decisions and innovations. Passionate about sharing this knowledge, he is dedicated to empowering the next generation of data scientists through practical and industry relevant education.

## BABITA

Company  
HCL

Uncodemy is the perfect place to start your data science career, as they provide regular live classes with doubt resolution. Moreover, they also allow students to book additional mentor - ship to sessions with industry experts tounderstand challenging topics better and gain industry insights. Uncodemy as highly as possible and suggest all the aspirants join Uncodemy with hesitation.

## ADITYA SINGH

Company : Deloitte

Uncodemy is a good place to start up if you are looking for a career transition or build a career in Data analytics. Moreover, guest lectures by Upendra sir are very insightful. Very efficient manage to reach out for any help during train - ing. The best thing is, they also offer support in looking for jobs post training. Thank You..

## NEELAM

Company : wipro

I've always wanted to create complete web applications on my own. | went for an Uncodemy Data Science Course. | am 50 grateful to Uncodemy now because | can fulfil my dream. Their staff and training are 50 fruitful, They will walk you through the process of building your first Data Science Course all application. If you Want to be a good program developer, hurry up and go for the Uncodemy Testing . Data Science Course.

## RITESH SINGH

Company : Bloohash

After spending 2 years in Non-IT job, decided to switch to IT job. Uncodemy is one of the leading brand in this section. I have complete here Data Science training course. They have very good trainers and HR team Who helps you to find the right job. The training content is very excellent and very useful to get your dream IT job. special thanks to Shivendra Sir, Ug sir, Anam Ma'am and HR department team for proper guidance and help throughout this journey. Now I'm working in the leading IT company with good package, all thanks to Uncodemy team.

# SUCCESS STORIES

## AKSHAY PATIL

Company  
Annalect

My experience with Uncodemy has been very enriching. Being a student from a completely non IT background has never been a difficulty because of their practical ways of teaching and hands on case studies. The faculty here is always there to guide and help the students in solving their doubts. Uncodemy also provides lifetime placement assistance. I would highly recommend anyone interested in the Data Science course and Data Analytics course to go to this institution. Thank You.

## SAURABH MISHRA

Company : KPMG

Best IT Training institute in Delhi  
NCR for Data Analytics and Data  
Science Course!!!

I am from Non-IT background and joined for Data science and ML course. I got more support and guidance from the trainers. Upendra Sir and Irshad Sir Trainers are more friendly and supportive. Able to learn coding language quickly because of trainers teachings. Thank you trainers and Uncodemy team.

## ADITYA SINGH

Company : Deloitte

I joined the Data Analytics course in Noida from Uncodemy. Upendra sir is well experienced & stupendous teaching, I really obtained more knowledge and also real-time scenarios. if you aspire to learn Data Analytics, Data Science, or Python and searching for an awesome trainer to help with your learning journey. then blindly go ahead and enroll in Uncodemy. By the end of the classes most of the topics will be registered into your memory and you will get a fair idea of how to implement them in real-time scenarios. I'm lucky to find the right trainer and the best training institute in my learning journey. Thank You

## NEHA SHARMA

Company : Infosys

"I can't speak highly enough about Uncodemy's Digital Marketing course. It's been a transformative experience for my career. The course content was up-to-date and comprehensive, covering all aspects of digital marketing from SEO to social media, PPC, and analytics. The instructors were not only experts in their fields but also passionate about teaching. What truly sets Uncodemy apart is their practical approach. I got to work on real campaigns and projects, which gave me the hands-on experience I needed. The support from both instructors and fellow students made my journey enjoyable and engaging. Thanks to Uncodemy, I now feel confident in my digital marketing skills and have advanced my career. If you're looking to excel in digital marketing, look no further than Uncodemy. It's a game-changer.
