Uncodemy Edutech Pvt. Ltd. was founded as a technical training institute under the Companies Act of 2013 with the main objective of training the youth in the areas of information and communication technology, such as **Artificial intelligence, machine learning, data science and analytics, business analytics, software testing, full stack development, digital marketing, web development, cyber security, ethical hacking, Cloud computing, AWS , Devops and other on-demand IT courses.**

Uncodemy has been associated with its parent company, GvCloud Secure Pvt. Ltd., Since its inception. Therefore, Uncodemy is not just a training institute but has been working as a web application development company and other service provider in the IT sector in India and abroad for many years. Uncodemy not only understands and meets the needs of the modern IT sector but also gives its students more career chances than other training facilities by focussing on practical training in accordance with client expectations.

In order to make the youth eligible for the current job vacancies, it is an essential aspect that the training curriculum is in sync with the current market demand. The curriculum of various courses offered at Uncodemy is designed keeping in mind the current market demand and the capabilities of the youth. The training program is provided as per the normset by the Ministry of Skill Development & Entrepreneurship, Government of India, and in compliance with the National Skill Quality Framework.

Through its ongoing efforts, **Uncodemy is fulfilling the vision of the Government of India to provide skill training to the youth and build a self-reliant India.** In addition to helping the young people get jobs we also assist them in finding jobs. **We rise by lifting others.**

***Founder, MD & CEO
Uncodemy Edutech Pvt. Ltd.***

“Uncodemy is a team of high-class working professionals associated with a Fortune 500 company. We are on a mission to employ millions. If you want a job or a career change, Uncodemy is the right place for you. We will teach you how to work with the latest technology.”

PROGRAM HIGHLIGHTS

 Live industry-based projects	 100% placement assistance	 CV building	 Confidence Building
 Online & offline	 weekly & weekend classes	 Interview Session	 Mock Interview Session
 Course Completion certificate	 Recorded Class	 Group Discussion	 Grooming session
 Interview Session	 6 Months internship	 Access to Class & Training Until Placement	 Communication Skills

ABOUT US

Uncodemy is one among a couple of driving organizations / in Delhi, Noida, NCR, India that give undeniable preparation in Data Science, Machine learning, Python programming, Tableau, - Deep Learning, and Artificial Intelligence. We at the collegetarget producing quality experts who can withstand the developing contest and rising intricacies in the innovative world. We are growing and leading the company of Delhi, Noida, NCR, India.

THE UNCODEMY

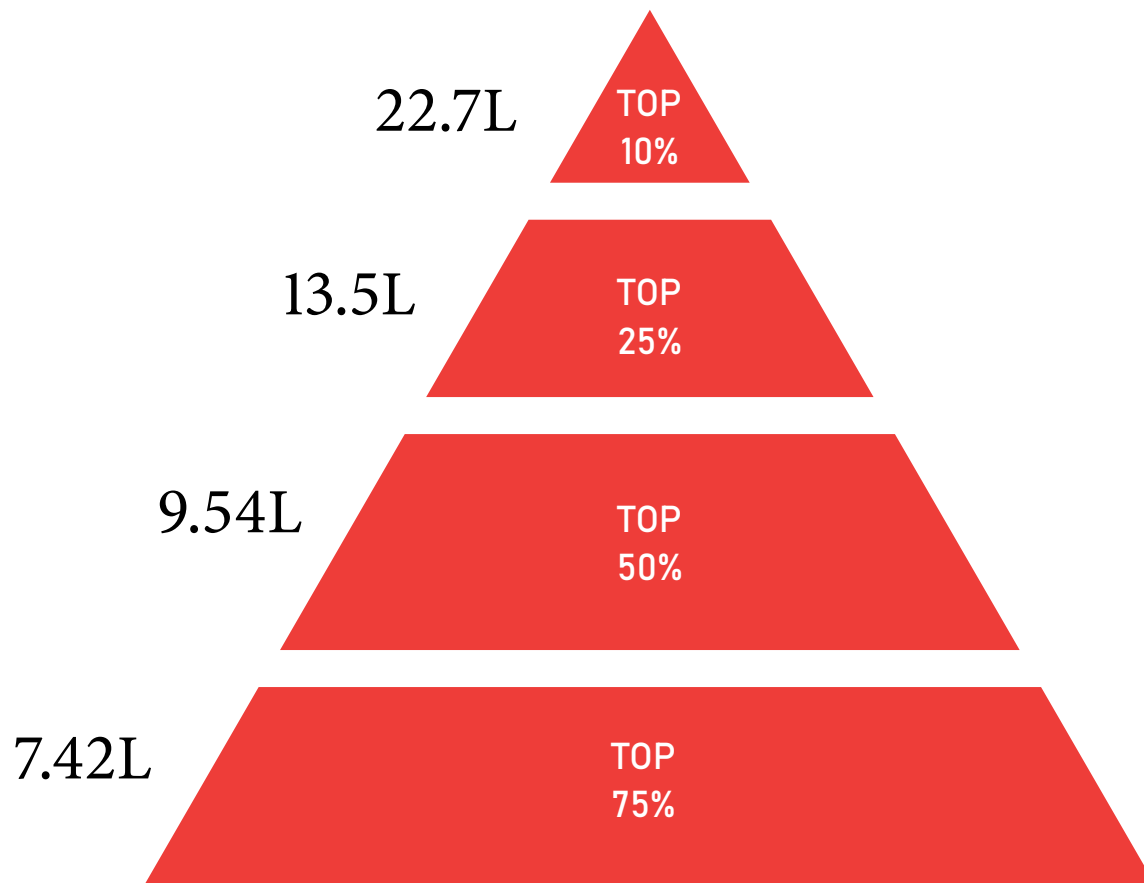

Is an Educational and Professional improvement Organization that has been established to propel the product and IT calling by advancing and perceiving demonstrable skill through training, counselling, gatherings and accreditation. Our Professional Dedicated Team guarantees to give you the best of specialization courses under disciplines like Data Science Machine Learning, Data Mining, Tableau, Text Mining, ReactJS, NodeJS, Angular, Python Programming, Deep Learning, and Java, network protection, programming testing, Cloud Technology, Digital advertising and a lot more with an emphasis on trustworthiness and on the web and Offline learning. We're attempting to transform our enthusiasm for IT Software Training Platform into a thriving position and occupation situated in the preparing stage without any hesitation at work.

Our aim is simple: We strive to create high-impact, hands-on experiences that prepare learners for meaningful and productive careers.

**Warm Regards,
Founder Uncodemy**

CAREERS IN SOFTWARE TESTING

SALARY PACKAGE

The results of a software testing job is tracked in a database for engineers to review so they can fix the defect. There are times when the position can seem monotonous, but the focus of your work will constantly change to different aspects of the program, alleviating some of the repetition. You also get an early look at the latest in technology and have a hand in making sure that a program is as defect free as possible. Finally, with software being an area that will always grow, software testers have one of the most secure jobs in the tech industry.

Why Should You Choose UnCodemy?

Top MNCs

UnCodemy partners with top-tier companies to ensure that its students receive instruction from industry experts with hands-on experience in the field of Software Testing.

No. 1 Institute for the Software Testing Course

UnCodemy in Noida stands out as the premier Software Testing course provider, featuring industry-experienced mentors from major corporations. With a commitment to 100% placements, it offers live project experiences, flexible online & offline training modes, and accelerated certification options catering to working professionals.

About Courses

UnCodemy follows a structured approach and comprehensive curriculum. Here are some key reasons why learning Software Testing from a training program can be beneficial:

1. Access to experienced instructors who can provide personalized guidance and support.
2. Exposure to industry-relevant tools and technologies.
3. Hands-on experience with real-world datasets and projects.
4. Networking opportunities with other students and professionals in the field.
5. A structured curriculum that covers the key concepts and skills needed to succeed in Software Testing.
6. Access to job placement assistance and career counseling.

About Industry Expert Trainers

Uncodemy partners with seasoned industry professionals to provide students with first-hand knowledge and real-world applications in the realm of Software Testing. These experienced instructors share their practical insights, equipping students not only with theoretical knowledge but also with the practical skills needed to succeed in the field.

About Certificate

Uncodemy is recognized by top industry bodies such as ISO and NASSCOM and is also endorsed by Skill India, a government initiative aimed at boosting skills development in the country. The certifications provided by Uncodemy are highly valued by employers, as they signify that the candidate has completed a rigorous program and has the necessary skills and knowledge to excel in the field.

Doubt Session

Uncodemy facilitates doubt sessions where students can receive individualized attention and clarification on challenging concepts. These sessions are led by experienced instructors who provide comprehensive explanations and examples, ensuring that students leave the session with a thorough understanding of the material.

Grooming Session

Soft skills training to improve communication, networking, and leadership skills. Identifying and highlighting transferable skills that may not be obvious.

CV building

Helping students build a killer resume. Ensuring that the resume includes relevant keywords to help it stand out in applicant tracking systems. Overall, it's about helping students make their resume shine and stand out from the competition.

Interview session

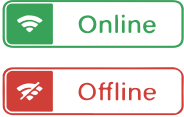

The goal is to prepare students for the job interview process, giving them the chance to practice their communication and interpersonal skills, and helping them feel more confident and prepared for the real thing.

Mock interview

Uncodemy uses mock interviews in its IT training program as a tool to help students refine their interview skills and prepare for job interviews in the tech industry. The mock interviews are designed to replicate the pressure and format of a real interview, without the actual job at stake.

Top Skills and Tools Covered

Course Curriculum

Manual Testing

Module 1 :

- What is testing
- Testing Concepts
- Importance of testing in IT Companies
- Fault and its types in details
- Verification & Validation
- Quality
- QA and QC
- Testing, Retesting & Regression Testing

Testing Approaches

1. White Box
 2. Black Box
 3. Grey Box
- Levels of Testing - Unit, Integration, System and User Acceptance Testing
 - Integration Testing Types
 - System Testing Types - Functional and Performance

Functional Testing Types:

Usability Testing

1. GUI Testing
2. Documentation Testing
3. Accessibility Testing

- Installation Testing
- Un installation Testing
- Configuration Testing
- Compatibility Testing
- Database Testing
- Security Testing
- Smoke Testing
- Sanity Testing
- Gorilla and Monkey Testing

Functional Testing Types

- Load testing
- Stress Testing
- Soak Testing
- Spike Testing

Module 2 :

Software Development life cycle

- Water fall model
- Spiral Model
- Incremental model
- Prototype model
- V- Model
- Agile - Scrum
- CSM Curriculum

Course Curriculum

Module 3 :

- Levels of Bug
- Severity & Priority
- Test Case
- Test Case Report along with small projects
- Bug Life Cycle
- Bug Report
- Testing Types
- Types of Testing – 10 special Types of Testing
- Testing Life Cycle(STLC)

Module 4 : API Testing Basic

- Presentation, Business and Database layers
- What is an API?
- What is API Testing?
- Difference between API testing and Unit testing
- Web services->an introduction
- HTTP Structure
- xml and JSON->an overview
- URI and URL
- Tools for API Testing
- Approach of API Testing
- Challenges of API Testing
- What to test for in API testing
- HTTP methods
- Status codes
- Example APIs

Module 5 : POSTMAN Tool

Introduction to POSTMAN tool and installation.

- Creating requests in Postman.
- Creating collections in Postman.
- Understanding variables and environments in Postman.
- Authorization in POSTMAN
- Assertions/Test scripts in POSTMAN.

Module 6: Database Testing

1. Introduction to SQL

(What is SQL?, Purpose of SQL, Who should learn SQL?, What are the subsets of SQL?, Data Definition Language, Data Manipulation Language, Data Control Language, and SQL vs. NoSQL)

2. Introduction to Databases and RDMBS

(What is a Database?, Database Objects, Database Tables, Table Records, Types of Database Management Systems, Relational Database Management Systems, and SQL/ Relational Databases vs. No SQL Databases)

Course Curriculum

3. Install a Database Engine

(Download MS SQL Server or Oracle or My SQL Database Engine, and Install. Launch SQL Server Management Studio, Select New Query, and launch SQL Query. Type SQL Commands and Execute.)

4. SQL Syntax

(Focus on SQL Syntax, SQL keywords, SQL is not case sensitive, SQL Comments, SQL Commands, and writing SQL Statements.)

5. SQL Data Types

(SQL Numeric data types, Date and Time data types, Character and String data types, Unicode character string data types, Binary data types, and Miscellaneous data types.)

6. SQL Operators

(SQL Arithmetic Operators, Comparison Operators, Logical Operators, and Bitwise Operators)

7. SQL Expressions

(SQL Boolean Expression, SQL Numeric Expression, and SQL Date Expression)

8. SQL Comments

(SQL Comments, Comments are used to explain sections of SQL statements, or to prevent the execution of SQL statements. Single-Line Comments, and Multi-line Comments)

9. SQL – Data Definition Language Commands and Operations.

(SQL Data Definition Language Commands, Create, Alter, Drop, Truncate, and Rename. Data Definition Language Operations, create a Database, Use Database, Rename a Database, Drop Database, Create a Table, Rename Table, Add a Column to existing Table, Add multiple columns to existing Table, Modify an existing column, Rename a Column, Drop a Column, Truncate a Table, and Drop a Table.)

10. SQL – Data Manipulation Language Commands and Operations

(Data Manipulation Language Commands, SELECT, INSERT, UPDATE, and DELETE. Data Manipulation Language Operations, retrieving data from a table, inserting data into a table, Updating existing data into a table, and Deleting all records from a table.)

Module 7:

Manual Projects (2 Weeks), including Test Managements Tools

Automation Testing Selenium + Java

Selenium Introduction, Firefox addons

Course Curriculum

- Selenium versions: Selenium IDE, Selenium RC (1.0), Web Driver (2.0)
- Why use Selenium, Eclipse and Java?
- Firefox addons (Firebug, FirePath)
- CHROME Inspector
- Internet Explorer Developer Tools
- Browser Document Object Model (DOM)
- Inspecting elements in Firefox
- HTML language tags and attributes
- Installing Java
- Installing Eclipse

XPATH expressions, First Selenium project -

- Create XPATH locators to identify page elements
- Absolute and non-absolute XPATH expressions
- Objects with same id/xpath selector
- Handling objects with dynamic attributes
- First Selenium projects

Selenium WebDriver

- Why WebDriver?
- Architecture of Selenium Webdriver
- Downloading WebDriver Jars and configuring in eclipse
- Drivers for Firefox, IE, Chrome
- HTML Unit driver and desired capabilities

Find HTML elements

- Find an HTML Element
- Find multiple HTML Elements
- Implicit Waits
- Explicit Waits

Manipulate HTML elements

- Interact with Links, Buttons, Input boxes, Radio buttons, Checkboxes
- Interact with list boxes and dropdown lists
- Read the title and URL of the page
- Check if an element is present, selected and enabled
- Get the value and attributes of HTML elements

CORE- JAVA BASICS

- Variables
- Types of variables constant
- Data types
- Operator
- String
- Array
- Character
- Boolean number
- Loop (if- else while, switch)
- Oops
- Classes
- Objects
- Overloading & overwriting
- Attributes
- Operators & logic
- Exceptional handling

Course Curriculum

JUnit 4 Unit Testing Framework

- What is JUNIT?
- Configuring Junit 4 in Eclipse
- Junit 4 annotations (@After, @Before, @AfterClass, @BeforeClass)
- Running a test in Junit
- Skipping tests Using Assertions
- Test Suites

Data Driven Framework

- Add parameters to test scripts
- Read test script parameters from CS files

Page Object Model

- What is the Page Object Model
- Use the Page Object Model to remove WebDriver actions from the test scripts
- Create Page Object Classes
- Start creating the test automation framework

Testing Frameworks

- Keyword Driven Framework
- Data Driven Framework
- Hybrid Framework
- Page Object Model

DEVELOP Page Object Model FRAMEWORK

- Creating Page Object Model Framework for Web Application using WebDriver /TestNG
- Use external Data for Testing (Excel sheet, xml files, Property file)
- Reading and understanding reports
- Screenshot of Failed Test case

Jenkins

- Installation
- How to run your local java programs in jenkins
- How to Inegrate your Jenkins with GitHub
- Upadate CI/CD Pipeline

GIT HUB concepts

- Creating GIT HUB Account
- Basic GIT HUB commands
- Configuring and Interface Overview of GITHUB

BDD/Cucumber Framework

- Introduction to BDD
- How to work on BDD

BUILD INTEGRATION

- Integration with Maven

CERTIFICATE OF TRAINING

(ISO 9001 : 2015 Certified)

PROUDLY PRESENTED TO

Devanshi Pande

You have successfully completed your
Four Months Training on Data Analytics with specialisation in Python.

UNCODEMY LIFE IN CAMPUS

Life on campus at UnCodemy is vibrant and engaging. Here's what you might experience:

1. Interactive Learning: UnCodemy fosters a dynamic learning environment. You'll engage in hands-on workshops, coding challenges, and collaborative projects, allowing you to apply what you learn in real-world scenarios.

2. Tech Culture: The campus buzzes with a tech-savvy atmosphere. From hackathons to tech talks by industry experts, immersed discussions about the latest innovations and trends in the tech world.

3. Diverse Community: You'll meet students from diverse backgrounds, all technology. This diverse community fosters a rich and perspectives.

4. Supportive Environment: Faculty and mentors are readily available to support your academic and personal growth. Whether it's tutoring, career advice, or simply a friendly chat, there's always someone willing to help.

5. Extracurricular Activities: Beyond academics, there are clubs, sports teams, and social events that provide to unwind, make friends, outside the classroom.

6. Innovation Hub: UnCodemy encourages innovation and entrepreneurship. You'll have access to resources like incubators, workshops, and networking events to develop your ideas and projects.

7. State-of-the-Art Facilities: The campus is equipped with modern facilities, including well-equipped labs, libraries, and recreational areas, providing an ideal environment for learning and relaxation.

8. Career Opportunities: UnCodemy offers career development resources such as career fairs, internships, and connections to industry partners, setting you up for success after graduation.

UnCodemy

AGILE ACTIVITY IN UNCODEMY

Sure, here are the top 10 Agile activities in the IT industry

1. Daily Stand-up Meetings: Short, daily meetings where team members discuss what they accomplished yesterday, what they plan to do today, and any obstacles they are facing.

2. Sprint Planning: A meeting at the start of each sprint where the team plans the work to be completed during the sprint.

3. Backlog Grooming: Regularly reviewing and refining the product backlog to ensure it contains the appropriate items, prioritized correctly.

4. Sprint Review: A meeting at the end of each sprint where the team demonstrates the work completed during the sprint and gathers feedback from stakeholders.

5. Sprint Retrospective: A meeting at the end of each sprint where the team reflects on what went well, what didn't, and identifies actions for improvement.

6. User Story Mapping: Collaboratively visualizing the user's journey through the product to identify all possible features and prioritize them.

7. Agile Estimation Techniques: Using techniques like Planning Poker or T-Shirt sizing to estimate the effort required for user stories or tasks.

8. Continuous Integration (CI): Developers integrate their code into a shared repository frequently, usually multiple times a day.

9. Test-Driven Development (TDD): Writing automated tests before writing the code to implement the corresponding feature.

10. Pair Programming: Two programmers work together at one workstation. One writes the code while the other reviews each line as it is written. They switch roles frequently.

Uncodemy is the perfect place start your Software Testing career, as they provide regular live classes with doubt resolution. Moreover, they also allow students to book additional mentor - ship to sessions with industry experts tounderstand challenging topics better and gain industry insights. Uncodemy as highly as possible and suggest all the aspirants join Uncodemy with hesitation.

ADITYA SINGH

Company : Deloitte

Uncodemy is a good place to start up if you are looking for a career transition or build a career in Software Testing . Moreover, guest lectures by Upendra sir are very insightful. Very efficient manage to reach out for any help during train - ing. The best thing is, they also offer support in looking for jobs post training. Thank You..

RITESH SINGH

Company : Bloohash

After spending 2 years in Non-IT job, decided to switch to IT job. Uncodemy is one of the leading brand in this section.

I have complete here Soft - ware testing training course. They have very good trainers and HR team Who helps you to find the right job.The training content is very excellent and very useful to get your dream IT job. special thanks to Shivendra Sir, Ug sir, Anam Ma'am and HR department team for proper guidance and help throughout this journey. Now I'm working in the leading IT company with good package, all thanks to Uncodemy team.

NEELAM

Company : wipro

I've always wanted to create complete web applications on my own. | went for an Uncodemy Software Testing Course. | am 50 grateful to Uncodemy now because | can fulfil my dream. Their staff and training are 50 fruitful, They will walk you through the process of building your first Software Testing web application. If you Want to be a good program developer, hurry up and go for the Uncodemy.

SUCCESS STORIES

AKSHAY PATIL

Company
Annalect

My experience with Uncodemy has been very enriching. Being a student from a completely non IT background has never been a difficulty because of their practical ways of teaching and hands on case studies. The faculty here is always there to guide and help the students in solving their doubts. Uncodemy also provides lifetime placement assistance. I would highly recommend anyone interested in the Software Testing course and to go to this institution. Thank You.

SAURABH MISHRA

Company : KPMG

Best IT Training institute in Delhi
NCR for Software Testing

I am from Non-IT background and joined for Software Testing. I got more support and guidance from the trainers. Upendra Sir and Irshad Sir Trainers are more friendly and supportive. Able to learn coding language quickly because of trainers teachings. Thank you trainers and Uncodemy team.

ADITYA SINGH

Company : Deloitte

I joined the Software Testing course in Noida from Uncodemy. Upendra sir is well experienced & stupendous teaching, I really obtained more knowledge and also real-time scenarios. if you aspire to learn Software Testing or Java and Python for an awesome trainer to help with your learning journey. then blindly go ahead and enroll in Uncodemy. By the end of the classes most of the topics will be registered into your memory and you will get a fair idea of how to implement them in real-time scenarios. I'm lucky to find the right trainer and the best training institute in my learning journey. Thank You

NEHA SHARMA

Company : Infosys

"I can't speak highly enough about Uncodemy's Software Testing course. It's been a transformative experience for my career. The course content was up-to-date and comprehensive, covering all aspects of digital marketing from SEO to social media, PPC, and analytics. The instructors were not only experts in their fields but also passionate about teaching. What truly sets Uncodemy apart is their practical approach. I got to work on real campaigns and projects, which gave me the hands-on experience I needed. The support from both instructors and fellow students made to journey enjoyable and engaging. Thanks to Uncodemy, I now feel confident in my Full stack developer skills and have advanced my career. If you're looking to excel in Software Testing, look no further than Uncodemy. It's a game-changer.
