Best AKTU Colleges by Placement 2026-2031 PDF

This report compares 9 AKTU-affiliated engineering colleges in Noida, Greater Noida and Ghaziabad using the B.Tech (UG 4-year) numbers each one reported to NIRF (2025 edition). GCET reports the highest median salary, ₹6,42,000 for its 2023-24 batch, and AKGEC placed the largest share of its graduates (93.7%).

Key takeaways

- Highest median salary: **GCET**, ₹6,42,000 (2023-24 batch).
- Lowest median in this group: ITS Engineering College, ₹3,36,000. The gap is ₹3.06 lakh.
- Highest placement rate: **AKGEC**, 93.7% of graduates placed.
- Biggest three-year rise in median salary: GCET (+51.1%).
- The median covers only students who were placed. Your own branch, skills and internships move your result more than the college average.

How this report was built

Every number comes from the NIRF data PDF that each institution submitted for its B.Tech (UG 4-year) programme, 2025 edition. We take the newest graduating batch for the main table and the oldest of the three batches for the trend. Placement rate is students placed divided by students who graduated in the minimum time. Rank is the NIRF Engineering rank or band for that edition.

How to read these numbers

The median is the middle salary of students who were placed, so half earned more and half less. Students who chose higher studies or skipped placements are not in it. Computer science offers usually sit above the college median, so look at your own branch. A small college with a high placement rate can suit you better than a big name where fewer students are placed.

Your plan from 2026 to 2031

2026-27: choosing and starting. Use the table to shortlist colleges, then compare your own branch, fees and city. In the first year, build strong maths and one programming language.

2027-28: second year. Pick a direction (development, data, cloud, testing) and finish two small projects. Start a public GitHub profile.

2028-29: third year. Do at least one internship and one larger project. Clear every backlog, because most companies allow none at the test.

2029-30: placement year. Practise aptitude and coding rounds, keep your CGPA above the usual 60% cut-off and apply off-campus as well as on campus.

2030-31: first job. Judge your first offer by the skills it builds, not only the package. The median salary in this report is a starting point, not a ceiling.

Frequently asked questions

Which college has the highest median salary in this report?

GCET, at ₹6,42,000 for the 2023-24 B.Tech batch, as reported to NIRF.

Where does this data come from?

From the NIRF data each institution submitted for its B.Tech (UG 4-year) programme. The source list links every PDF.

Is the median salary the same as the highest package?

No. The median is the middle salary of placed students. The highest package is a single offer and is usually far above the median.

Why is the year range 2026-2031?

The report is built for students joining college now: it shows today's numbers and a year-by-year plan up to their first job. We update it every year when new NIRF data is published.

Is this PDF free?

Yes. Fill in the short form on this page and the PDF downloads right away.
